

# ONE BIG COUPON

In years past, the union put individual coupons into our summer mailing so you could sign up for seminars and training classes on subjects ranging from driver's education to business writing to civil service procedures.

This year, we are posting those individual coupons on the OSA website at [www.osaunion.org](http://www.osaunion.org) in the "Member Services" section. There, you will find the descriptions and dates for each of the semi-

nars and training classes listed below.

Once you've decided which classes and seminars you're interested in, simply check them off on the list below and complete the information requested. Then, mail or fax the coupon back to the union.

In a few cases, additional items are needed, such as a check to accompany the driver's training class registration. If the individual form requests more information, please complete that form as well and send it in to the union, along with this "master coupon."
