

NEWS FROM THE CHAIR & GENERAL MANAGER

All NYCHA staff eligible to receive COVID-19 vaccine

Dear Colleagues,

We are pleased to provide an update regarding COVID-19 eligibility for NYCHA employees: All NYCHA employees, including employees currently working remotely, and those working at NYCHA through our staff augmentation vendors, are now eligible to receive the COVID-19 vaccine. Interested employees should schedule an appointment, and bring proof of employment to the vaccination site, such as a NYCHA employee ID card or a NYCHA pay stub.

The City has established five vaccination sites specifically for City employees (including NYCHA employees), all of which are ADA accessible. To sign up for an appointment at a City site in the borough most convenient for you, click the relevant link below:

With high schools reopening this week, some of the current vaccination sites may change locations. If you currently have an appointment for a vaccination at a high school site, your appointment will be honored at an updated location.

You may also visit any of the public sites. You can access a complete list of those locations [here](#).

If you have questions about the COVID-19 vaccine, please talk to your healthcare provider, call 311, or visit nyc.gov/covidvaccine.

NYCHA has implemented a Time and Leave Policy to ensure getting a COVID-19 vaccine is as easy as possible:

- By law, employees are entitled to up to four hours of excused leave per injection during work hours for travel (to and from) and administration of the vaccine, up to a total of eight hours for a two-dose vaccine. (You are not eligible for excused leave if you are vaccinated during your non-working hours.)
- Upon successfully completing the vaccine and providing proof to your supervisor, you will be eligible for three hours of comp time.
- Employees experiencing adverse effects to the COVID-19 vaccine may be entitled to additional leave time under NYCHA's COVID-19 leave policy.

HR will issue updated guidance on NYCHA's COVID-19 vaccination policy shortly.

For frequently asked questions about the COVID-19 vaccine, please review the [COVID-19 Vaccines FAQs](#).

Sincerely,

Greg Russ
